This classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene in 1990. *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling.

Tim O'Brien depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of 43.

Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing.
